## THE BEGINNING OF VIDYALANKAR

> "Work is worship."

Vidyalankar is a union of two Sanskrit words Vidya + Alankar the essence of which is 'True ornament of mind is knowledge'. Vidyalankar started off with the passion of the Founder, Prof. C.S. Deshpande, who needed just a black board and young impressionable minds to impart knowledge. Prof. Deshpande had a brilliant career throughout. His passion for education lead him to give up his brilliant career in the India Railways as Class I gazetted officer to start the Vidyalankar Classes in 1960.

The Trust runs multiple colleges namely, Vidyalankar Polytechnic, an Engineering Diploma College approved by All India Council of Technical Education (A.I.C.T.E), Directorate of Technical Education (D.T.E.) Maharashtra State and affiliated to the Maharashtra State Board of Technical Education with all of its programmes - Electronics & Telecommunication Engineering, Computer Engineering and Information Technology accredited by **National Board of Accreditation.**

### **Vision**

To achieve excellence in imparting technical education so as to meet the professional and societal needs.

### **Mission**

- Developing technical skills by imparting knowledge and providing hands on experience.
- Creating an environment that nurtures ethics, leadership and team building.
- Providing industrial exposure for minimizing the gap between academics and industry.

# VIDYALANKAR POLYTECHNIC

Vidyalankar desires to train enquiring technologists -

- Capable of making apt decisions.
- Thinking and working strategically across the regional and national boundaries in this complex global environment.
- Wanting to serve their Society, Country and the Humanity at large.

Vidyalankar is also very aware of the importance of making education relevant specifically to the students' profession and generally to life itself. Vidyalankar offers the students a pathway to a very high quality life where students develop a deep sense of ethics, assume social responsibility, where they build contacts and make long lasting friendships.

Vidyalankar, believes in a comprehensive, holistic approach towards education. This, when coupled with inner merit, transforms the students into consultants, analysts, designers, programmers, researchers, leaders and above all helps them become successful, happy and good human beings.

## FROM PRINCIPAL'S DESK

Vidyalankar Polytechnic started its journey in the year 2002, with the aim of providing quality technical education to the students who aspire to become skilled engineers.

We, at Vidyalankar, provide a warm, caring, stimulating and challenging environment in which our students learn and develop. We aim to provide an education which explores and strengthens the potential which is innate in every individual but awaiting expression.

In order to do so, we seek to provide an environment which enriches the intellectual, spiritual, emotional and physical development of the students in an atmosphere that is happy and nurturing. Emphasis is thus placed on developing fundamentals and skills of engineering subjects, promoting personality development, building a sense of responsibility and ultimately securing a strong sense of self.

Students who thrive in academic environment of our institute are also exposed to state of the art information on upcoming technologies from various sources such as expert lectures, webinars, media and industry-institute interaction.

A dedicated team of teachers, administrative staff and a management with great vision, form a unified team making endeavors to transform the young ones into a skilled professional having knowledge, energy, strength, and create a catalytic force to metamorphose the social fabric.

It is our aim to help all students achieve a level of excellence in their chosen field. Together we will have to move along, as we all sincerely believe in the making of a Truly Global Professional.

Ashish Ukidve

## NATIONAL BOARD OF ACCREDITATION

NBCC Place, East Tower, 4<sup>th</sup> Floor, Bhisam Pitamah Marg,  
Pragati Vihar, New Delhi - 110 003  
Tel.: +91 11 2436 0620-22, 2436 0654; Telefax : +91 11 43084903  
Website : www.nbaind.org

File No. 28-183-2010-NBA

Date : 05-03-2020

To,

The Principal,  
Vidyalankar Polytechnic, Vidyalankar Campus, Vidyalankar College Marg,  
Antop Hill, Wadala (East), Mumbai, Maharashtra-400037.

**Subject** : Further accreditation status on the basis of Compliance Report og Programs offered by Vidyalankar Polytechnic, Vidyalankar Campus, Vidyalankar College Marg, Antop Hill, Wadala (East), Mumbai, Maharashtra-400037.

Sir,

This is regarding Compliance Report submitted by Vidyalankar Polytechnic, Vidyalankar Campus, Vidyalankar College Marg, Antop Hill, Wadala (East), Mumbai, Maharashtra-400037 for the Diploma Engineering programs which were accreditation by NBA for the academic years 2018-19 to 2019-20 whose validity is expiring on 30.03.2020

- An expert Team conducted data verification of the programs on 15<sup>th</sup> February,2020. The report submitted by the Expert Team was considered by the concerned Committees constituted for the purpose in NBA. The competent authority in NBA has approved the following accreditation status to the programs as given in the table below.

Sr. No.	Name of the Program(s) (Diploma)	Basis of Evaluation	Accreditation Status	Period of validity	Remarks
1	Computer Engineering	January, 2019 Document	Accredited	Academic Years 2020-2021 to 2022-2023 i.e. upto 30-06-2023	Accreditation status granted is valid for the period indicated in CoI. or till the program has approval of the competent authority, whichever is earlier.
2	Information Technology		Accredited		
3	Electronics & Telecommunication Engineering		Accredited		

- It may be noted that only students who graduate during the validity period of accreditation, will be deemed to have graduated with an NBA accreditation degree.
- The accreditation status awarded to the programs as indicated in the table does not imply that the college accreditation has been granted to Vidyalankar Polytechnic, Vidyalankar Campus, Vidyalankar College Marg, Antop Hill, Wadala (East), Mumbai, Maharashtra, 400037 as a whole. As such the accredited by NBA because it is program accreditation and not Institution accreditation. If such as instance by NBA's notice, this will be viewed seriously. Complete name of program(s) accredited, level of programs(s) and the period of validity of accreditation, as well as Academic Year from which the accreditation is effective should mentioned unambiguously whenever wherever it is required to indicate the status of accreditation by NBA.
- The accreditation status of the above programs is subject to change on periodic review, if needed by the NBA. It is desired that the relevant information in respect of accredited programs as indicated in the table in paragraph 2, appears on the website and information bulletin of the institute.
- The accreditation status awarded to the programs as indicated in table in paragraph 2 above is subject to maintenance of the current standard during the period of accreditation. If there are any changes in the status (major changes of faculty strength, organizational structure etc.) the same are required to be communicated to the NBA, with an appropriate explanatory note.
- A copy each of report of the Visiting Team in Respect of the above program is enclosed.

Encls.: 1. Copy each of Report of the Visiting Team in respect of the programs.

Copy to :

- The Director of Technical Education,  
3, Mahapalika Marg, Opp. Metro Cinema,  
Chhatrapati Shivaji Terminus Area, Mumbai, Maharashtra 400001
- Accreditation File
- Master Accreditation file of the state.

Yours faithfully,

(Dr. Anil Kumar Nassa)  
Member Secretary

## WHY DIPLOMA ?

- Diploma is the only career path that provides job and an entrepreneurship opportunity as well.
- Diploma curriculum offers more hands on practice and hence Industry prefers Diploma + Degree graduates while recruiting.
- Number of years required to complete engineering degree after SSC through Diploma stream is (3+3) which is same as that required after SSC through HSC (2+4).
- NO entrance examination such as JEE / CET while securing engineering degree admission for diploma pass out students.
- Diploma graduates can also opt for few other graduation courses and foreign university graduation courses.

## ELIGIBILITY

### Admission to First year of Diploma in Engineering

The Candidate should have passed Secondary School Certificate (S.S.C.) Examination of Maharashtra State Board of Secondary and Higher Secondary Education or any other Equivalent Examination

### Direct Admission for Std. XII Students to Second year of Engineering Diploma

1. Candidate passing 12th Science
2. Candidate passing 12th Science with Vocational and Technical subjects
3. 10th +2 years MCVC / ITI with appropriate specialization

## COURSES OFFERED

All Programs Accredited By

- Electronics & Telecommunication Engineering
- Computer Engineering
- Information Technology

Approved by Government of Maharashtra & AICTE,  
Affiliated to Maharashtra State Board of Technical Education

# ELECTRONICS & TELECOMMUNICATION ENGINEERING

## Vision

To produce Electronics and Telecommunication engineers capable of effectively using technical knowledge and interpersonal skills to benefit the industry and society.

## Mission

- 1 Providing state of the art facilities and conducive environment enabling the students to sustain the challenges in the field of Electronics and Telecommunication
- 1 Educating the students to face the competitive world, develop leadership skills and to instill discipline and ethics.
- 1 Promoting industry institute interaction.

Electronics and Telecommunication Engineering is the study, application and control of the scientific phenomenon concerned with the flow of electrical current. Telecommunication sector involves the telephone industry, computer industry, microwave radio systems, satellite communications, earth stations using satellite dishes, cellular phones industry.

In the present era the field of electronics and telecommunication plays an important role in almost every sphere of our life. It mainly deals with the communication technologies along with the basic electronic components, design of circuits and systems. Electronics & Telecommunication Engineering offers scope in the field of research, mobile communication, Microwave communication, robotics, defense, radio communication, TV broadcasting, telegraphy & telephony, VLSI design, DSP, nuclear science, wireless communication and biotechnology.

There are many opportunities for those pursuing a career in Electronics Engineering - in enterprises and public sector with manufacture, design, effects radar and navigational aids and application of electronic devices and equipment, radio and television, communication systems and process control to mention a few.

# COMPUTER ENGINEERING

## Vision

To empower students with domain knowledge of Computer Engineering and interpersonal skills to cater to the industrial and societal needs.

## Mission

- ! Developing technical skills by explaining the rationale behind learning.
- ! Developing interpersonal skills to serve the society in the best possible manner.
- ! Creating awareness about the ever changing professional practices to build industrial adaptability.

As technology develops in leaps and bounds, the opportunities for expanding the field of Computing grow even more rapidly. The Computer Engineering Course gives a sound grounding in the fundamentals of computing and an understanding of the underlying engineering principles. A Computer Engineering student studies the design of digital hardware and software systems including communications systems and computers. They are involved in many aspects of computing from the designing of individual microprocessors, personal computers, and supercomputers to circuit design.

The three year Computer Engineering Diploma Course is divided in to six semesters.

# INFORMATION TECHNOLOGY

## Vision

To become a leading center in the domain of Information Technology where learners are introduced to the concepts and implementation of technologies.

## Mission

- 1 Encouraging academic excellence and a passion for learning through the use of learner-oriented teaching methodologies.
- 1 Providing an environment that inculcates ethics and effective soft-skills and focuses on the development of learners.
- 1 Establishing and reinforcing a symbiotic institute-industry interface so that learners can gain exposure to real-life applications of Information Technology.

Information Technology Engineering deals with the study of designing, development, implementation, support or management of computer-based information systems, particularly software applications and computer hardware. It involves the use of electronic computers and computer software to convert, store, protect, process, transmit, and securely retrieve information. The focus is on the computer system designed as an element within a computer network, as well as Networking Technology.

Information technology is a highly important aspect today. Having the ability to transfer data, store data and keep it safe is crucial in many ways. Without information technology many medical facilities and corporations would find it difficult to keep information stored securely. Computers allow users to communicate with many people at once or in far away places. It stands to reason that with the development of better technology yearly, computers will play a vital role in the ongoing support of IT in the future.

# FACULTY

The Institute is empowered with its highly experienced and committed team of faculty, easily one of the best amongst un-aided institutes in the region.

They are endowed with rich academic, industrial, research and project experience to execute and implement Design, Development, Research and Consultancy Projects in diverse technological and management domains. This can be attributed to their solid theoretical foundation coupled with practical know-how and expertise.

# STUDENT SUPPORT

The main aim behind establishing several committees at VP was to facilitate proper and effective functioning of the institute. The order to ensure that the committees which are formed by the institute for effective management of the institution and benefit of the students, VP has in all committees.

## Alumni Committee

The motive behind creating this committee was to establish contact with the alumni who are committed to promoting the welfare of the institute supporting its traditions and goals and enhancing the institutes fame locally & globally.

## Career Counseling Committee

The committee focuses on improving institutional effectiveness by integrating strategic training career with the existing Engineering Curriculum.

## Entrepreneurship Development Committee

The committee aims at identifying & nurturing the skills required for an entrepreneur in the students and giving them solutions that create sustainable economy to create a successful business and a significant realizable value for self-community and nation.

## Final Year Projects Quality Assurance Committee

This committee ensures that the students prepare very meaningful useful projects. It makes the students think the main motive of the committee is to inculcate project handling skills in students.

## Food & Beverages Committee

This committee is constituted to ensure that there is access to wholesome food on the campus & that the cafeteria & kitchen premises conform to high standards of cleanliness. It regularly monitors matters related to pricing, variety, meal plans, address issues & concerns from the college community regarding the food services.

## Anti-ragging Committee

Ragging is an offence by law. It is punishable offence. Ragging is viewed as very serious act and the Hon'ble Supreme Court has issued very strict orders to curb ragging in educational Institute. Detailed orders can be read on [www.aicte-india.org.in](http://www.aicte-india.org.in)

## Hobby Club Committee

The main objective of this committee is to encourage student participation in recreational activities and in turn provide an opportunity for networking, team-building and personality development.

## Industry-Institute Interaction Committee

This committee works towards designing an engg. Curriculum which prepares students for jobs in multinational companies by exposing them to the newest technologies and practical methodologies by way of strategic collaboration with industries.

## Laboratory Development Committee

This committee takes every step to provide best facilities in the institute laboratories leading the research environment and creating "Centers of Excellence" in the technological field.

## Library Committee

The purpose of the Library Committee is to assist in developing operational procedures suggest various measures for improvement and development of the library resources and formulate both personal & fiscal polices which would enable the students to make optimum use of library and inculcate reading habits in them.

# STUDENT SUPPORT

## Parent Interaction Committee

This committee was designed keeping in mind parent's crucial role in the occupational aspirations of their children the committee aims of providing a

common forum for interaction of parents and teachers so as to exchange feedback and jointly motivate the student to put in his / her best efforts.

## Personality Enrichment Committee

The committee organizes & co-ordinates an interesting blend of courses ranging from soft skills to grooming sessions to equip individuals to qualitatively upgrade their life and career. The training programs are specially designed to enhance skills such as team-building, assertiveness & confidence building, aimed at raising employee morale.

## Research & Development Committee

The committee focus on providing an atmosphere conducive to research & development for faculty & students by entering into strategic collaborations with industries & other institutes at the national & international levels. The key goal is to initiate & give the proper impetus to research activities which would contribute to further developments in an increasingly tech-savvy world.

## Staff Development Committee

The committee aims to initiate and act upon several measures for the benefit of the staff. The main priority is to create a bond of solidarity and a spirit of satisfaction amongst the staff members, which in turn enhances the quality of teaching imparted at the Institute.

## Staff Welfare Committee

The committee aims to initiate and act upon several measures for the benefit of the staff. The main priority is to create a bond of solidarity and a spirit of satisfaction amongst the staff members, which in turn enhances the quality of teaching imparted at the Institute.

## Student's Council Committee

To provide all round development to the students in terms of co-curricular and extra-curricular activities. To organize the events in a planned manner. To provide a stress relieving non-academic interaction for students at the end of an intensive academic week. To engage the students in qualitative activities in post academic hours to develop a sense of attachment to the college.

## Vidyalankar Volunteering Committee

The committee motivate students to willingly participate in 'on-the field' social service activities, build partnerships with NGO's to address common goals and raise awareness of volunteering as it is also an important part of the role of educators.

## Website Committee

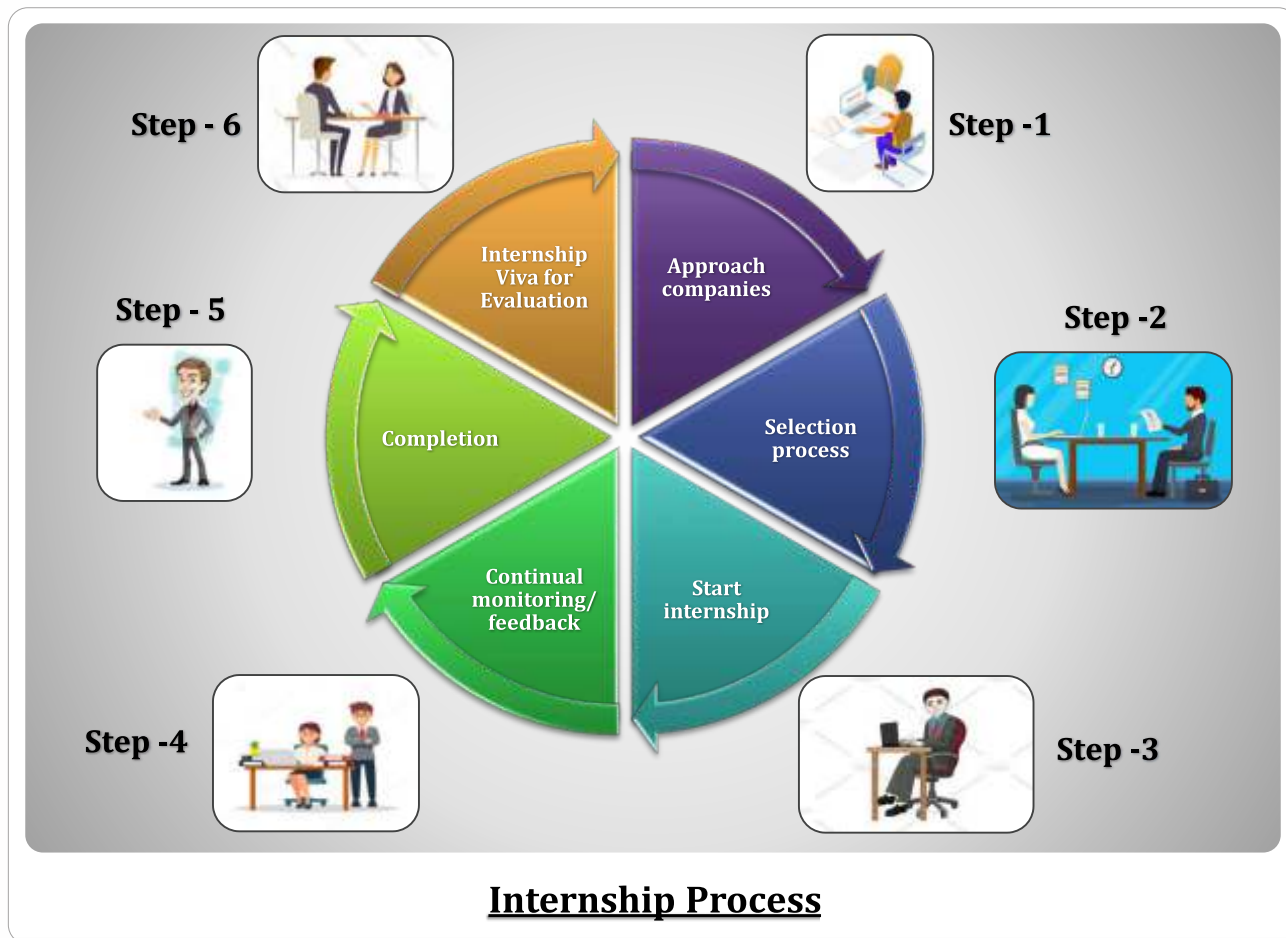

This committee is to disseminate comprehensive information with easy accessibility. It shall be an active portal, enabling the college to publish current news and events, updated regularly. It is structured to communicate the strategic vision of its founders, to make it easy for current students to pursue their education and prospective students who wish to apply to find necessary information. This also provides excellent networking facilities for our alumni spread worldwide.

## Women Development Cell Committee

The committee seeks to promote respect for women at the workplace, address feminist issues, identify problems of working women and try to resolve them in a well-negotiated manner. This is achieved by way of conducting discussions, seminars, presentations, workshops, film festivals and other activities.

# INTERNSHIP PROCESS

# VP Students doing INTERNSHIP at...

Industry-Institute interaction is the most preferred activity for mutual benefit and growth of industries as well as institutions.

# ACTIVITIES & EVENTS

# SPORTS

Vidyalankar appreciates the boisterous, physical and mental energy of the students that needs a proper channel to express itself. Thus, it aims to promote and improve the sporting prowess of the students and provide opportunities to develop various skills appropriate to both sport and life. All are aware that games inculcate discipline, teamwork, patience, a sense of justice, courage, endurance and perseverance.

Vidyalankar has a provision for Indoor and Outdoor Games. The campus has two large playgrounds to play games like football and cricket. The students can also relax by playing indoor games like chess, carrom, table-tennis, badminton, etc.

## CAMPUS FACILITIES

Vidyalankar's sprawling campus of 11 acres has a unique state of the art and grand regal structure that promises to be a boon for students pursuing professional careers. The physical infrastructure expresses the will of the Institution to impart the best of education, in a progressive environment.

### Computer Centre

At Vidyalankar, the use of computers is a normal part of every student's life whether they are word-processing technical reports or using the internet to search for information. VP has a state of art computer centre which is accessible to students from 8.00 am to 8 pm (more than 700 computers including SUN, Macintosh Work Stations).

### Central Library

The Library provides the right resources to help students complete their studies successfully. The Library contains an extensive collection of technical books, national and international academic journals and newspapers.

Students can also access the large reservoir of information from the world wide web through the specially set up internet terminals in the Library. The Library provides areas for group work as well as silent study.

## CAMPUS FACILITIES

### VPrint

VP has a world class automated in house print facility. This system will enable students to issue print commands from virtually anywhere in the world at the most affordable prices.

### Laboratories

All the Laboratories are equipped with modern equipments that allow students to practice the theory that they learn in the classroom.

### Vidyalankar Wi-fi:

Vidyalankar is powered with 12 enterprise level wireless access point which is centrally controlled. This enables people to seamlessly browsed high speed internet from any wireless device.

## CAMPUS FACILITIES

### Amphitheatre

The Amphitheatre is an outdoor and open-air venue used for entertainment, performances and students' social activities. All major social events are held in the Amphitheatre, giving it a modern day feel of the olden days Greek amphitheatres.

### Cafeteria

Mumbai is a place of distances and a good cafeteria is a necessity. Vidyalankar has good cafeterias with adequate space that offer food items to cater to different tastes. Utmost care is taken to maintain cleanliness and hygiene.

### Students' Activity Centre

Students' Activity Centre exists to provide a wide range of services, activities and an opportunity to build campus community involving students and staff with equal opportunities. The internal website gives information about forth coming events and also explains how to get involved in other social activities at VP.

## CAMPUS FACILITIES

### Counselling Centre

Vidyalankar runs Counselling centre in campus, which is open to all the students. It has well trained staff on its advisor board and also an on campus counsellor Ms. Archana Samarth. It advises students on many issues including finance, academic problems and welfare.

### Fire Safety and Evacuation Plan

The Institute buildings are equipped with fire-fighting equipment as per safety norms. Fire drills are carried out by the Security team regularly.

Emergency evacuation plans are displayed in the Institute buildings along with the provision of a public address system to alert all in case of an emergency.

### Auditorium

The auditorium is an architectural masterpiece is equipped with state of the art audio-visual equipment. It is a brand new addition to the Vidyalankar Campus and has an International Award to its credit. It won the award for the Top Institutional Theater Design in the world at the Interior Design Best of the Year Awards in December 2014 at New York. This project has been featured in the December 2014 issue of 'Home Trends' magazine and in the international 'Professional Lighting Design' magazine

### Security

Campus security arrangements ensure that safety measures and adequate precautions are taken to secure the inmates. Closed circuit TV cameras have been installed at strategic locations on the campus and the security personnel are trained to handle emergencies. The campus is monitored by two security officers and more than 40 security guards all-round the day and night.

## From the heart of our Alumni

Punit Omprakash Nandrajog  
Quality Engineer - Mircom Technologies

"Education is the most powerful weapon which can change the world" said Nelson Mandela, which turned out to be very true in my case. Vidyalankar was my weapon and base for what I am today, the quality of education I received made me pass out with distinction and motivated me to join Electronics and Telecommunication Engg. Degree.

Upon graduating, I worked for a budding entrepreneur as a Network Engineer and further to develop my skills I decided to take up a position as Quality Assurance Engineer at SGS India Pvt Ltd. After gaining work experience of close to two years, it triggered me to pursue Post Graduation in my core hence I ended up choosing Post Graduate Diploma in Wireless Information Technology in Fleming College, Canada. I continued to be a successful student in Fleming as well, during my last semester I competed with 100 other students and got into a reputed company "Mircom Technologies" as Quality Engineer once again.

Bhagyashree Tate  
Assistant Key Account Manager  
Modern Trade, LG Electronics Pvt. Ltd.

The structure doesn't make an institute great but the humans inside, getting an opportunity to study in Vidyalankar Polytechnic was indeed a pleasure and honour to be recognized of being a part of such a prestigious institute even after years gone. It lives up to its reputation of having great intellectual capital and a competitive environment.

I was exposed to activities, courses, sessions to accelerate critical and technical thinking and thus enlarge the intellectual capacity. With educational events, there was also exposure to various extra-curricular activities so there was always a fun part, Technical Paper study and publishing, Live projects building which helped discover my creative side in me. I also got the opportunity to study with a diverse set of students with different educational backgrounds.

At VP, every faculty here goes beyond usual pedagogy and instead fuelled me to bring the best in me by supporting and coaching more as a mentor making all possible efforts to ensure that I was groomed and we walked out with a strong foundation with head high.

## From the heart of our Alumni

Abhijeet Gupta  
Product Manager |  
UX-UI Expert | Strategist  
Stylabs Technologies Pvt. Ltd.

My journey started in Year 2006, I just came out of school and entered in Vidyalankar Polytechnic college life.

Days passed, then weeks passed and don't know exactly how and when Vidyalankar College accepted me like an old friend and provided me all the mental comfort which i needed that moment.

Soon I started spending more time in college like my second home and I was loving it from the core of my heart. I give full credit to faculty of Vidyalankar Polytechnic, who pushed me harder to achieve my goal and in same time given me all help and support as and when i need it.

Thank you for helping me find Myself.'

Sunil Thube  
System Manager - Vidyalankar Institute of Technology

Vidyalankar is brand in education as well as in conducting many social activities and I am happy to be part of that activities. Since 2009, I am working in Vidyalankar family because I wanted to do something for my college. I am part of many technical projects, which are currently being implemented in Vidyalankar such as V-Print (in-house printing solution for student), Server and desktop Virtualization, Network Designing and implementing, Wi-Fi solution, network security, cloud computing and so on. It is an amazing experience for me. Last but not least I am very thankful to my teachers because of them; I have reached to this level with their constant support. Built confidence in me. I am feeling very proud to be the part of this family. Thanks to Vidyalankar.

Novina Rayudu  
Software Engineer  
BNP Paribas India Solution Pvt. Ltd.

The hardest choice for me is to choose my carrier path after 10th, but Vidyalankar helped me a lot to proving that I took the right decision of doing Diploma after 10th.

The college environment is so friendly that I never use to think before asking teachers for any doubts, may be the practical sessions or during lectures teachers are always there to help you anytime.

It's because of this friendly environment at Vidyalankar I had learnt a lot of new things, coding languages and I am so comfortable with the Coding languages and subjects thought, they just made my Degree life much easier because half of the subjects in degree are just a revision of what you have learnt in Diploma.

Today at whatever place I am it's just because of the teacher's support from Vidyalankar even till date.

# Study Abroad VP to USCB

Bachelor of Computational Science  
at University of South Carolina, USA

## Duration

6 Years

3 Years at Vidyalankar Polytechnic & 3 Years at Univ. South Carolina (USA)

## Eligibility

Std. X passed

## Specialisation

- Computational Science
- Advanced Gaming
- Cyber Security

## Benefits

3 years Post study work visa

Get upto 50% Scholarship

Excellent Placements

SAT waived off

## BS (Computational Science)

Computational Science is a field of applied Computer Science in which computing theories and software techniques are used to serve and advance many disciplines, including science, engineering, social science, and business.

The B.S. in Computational Science at the University of South Carolina Beaufort is designed to introduce students to cutting-edge computing and quantitative skills relevant to their concentration or interests.

## Excellent Career Opportunities

- | A wide range of corporate, government, and non-profit organizations employ graduates of Computational Science programs.
- | Computational Science students are also strong candidates for graduate programs.
- | The Top recruiting companies are

- Boeing
- IBM
- Lockheed Martin
- Aerospace Corporation
- The U.S. Dept. of Energy
- South Carolina bio fabrication industry
- Gulfstream etc.

## WHAT AFTER DIPLOMA ?

- ⇒ Students are selected by reputed Industries to take up Jobs as Engineers.
- ⇒ Direct admission to second year of Engineering
- ⇒ Direct admission to second year of B.Sc. (IT).
- ⇒ A Degree from Mumbai University enables the students to be eligible for Post Graduate education. It helps them acquire a professionally employable degree after graduation.
- ⇒ Study Abroad

## GLAMOUR QUOTIENT AT VIDYALANKAR

➤ The Wadala campus of Vidyalankar is a blend of academics and entertainment. Through the year, the campus has been peppered with various interesting activities. While the glam quotient keeps the students charged, the main focus of the institute is providing best facilities in education and training.

It is important to provide students the best of education in a modern environment synergic with today's corporates.

Equally important is to design a number of activities that make students sure-footed and groom them into global citizens.

Arjun Kapoor, Priyanka Chopra & Ranveer Singh promoting their Hindi Film

Actors Swapnil Joshi, Mukta Barve, director Satish Rajwade, playback singer Bela Shende at a music launch of Marathi movie

Subhash Ghai as Chief Guest at 'Gondhal' during Verve Festival

## GLAMOUR QUOTIENT AT VIDYALANKAR

MTV Shoot of **'Angles of Rock'** artists Jasmine Sandlas, Aksa Kaur, Anusha Mani, Shalmali Kholgade & Anusha Dandekar performing on campus

Arman Malik live  
concert at  
Vidyalankar

Gurmeet Choudhary  
& Sapna Pabbi  
promoting  
their film

## EMINENT PERSONALITIES

➤ Some eminent personalities who enriched the minds of the staff & students of Vidyalankar with their live interactions on campus.

Mr. Vinod Tawde

Ex-Minister of Higher & Technical Education  
Marathi Bhasha  
Cultural Affairs  
Government of  
Maharashtra

Dr. M. M. Sharma

Ex-Director UDCT, FRS,  
Recipient of  
Padma Bhushan,  
Padma Vibhushan  
awards

Dr. Raghunath Mashelkar

Ex-Director General  
of CSIR, FRS, Recipient  
of Padma Shri,  
Padma Bhushan,  
Padma Vibhushan,  
SS Bhatnagar awards

Dr. Jayant Narlikar

Astrophysicist, Recipient  
of Padma Bhushan,  
Padma Vibhushan  
awards

Dr. Vithal Kamat

Chairperson,  
Kamat Group of Hotels

Dr. Ajit Ranade

# Bypass the barriers to engineering careers

A Diploma course after SSC results can facilitate a smoother transition to a degree course with specialization

The government's decision to have a common entrance exam for engineering courses, post-10<sup>th</sup>, has changed the playing field considerably. Now, even students who seek admission in a normal engineering college will probably have to appear for the new JEE, which is very tough. The new pattern proposes to give substantial weightage to 10<sup>th</sup> (Board) as well as an aptitude test. This will add to the stress of the students considerably. Moreover, the number of students applying for degree courses tends to be extremely high, which means the chances of getting admissions are hardly, quite limited. However, there is a way in which engineering aspirants can bypass these barriers to engineering careers. Rather than pursue the typical post-10<sup>th</sup> entrance exam mode and apply to an engineering college, there is a simpler and smarter option. If one makes the effort to be focused and plan well ahead of time, it is possible to completely avoid the stiff competition that prevails at the degree admission stage. How? Well, as soon as students pass SSC, they can opt for the three year diploma in engineering course. Later, they can use this as a foundation to get admitted directly into the second year of the Engineering degree course. While you may find this to be an unusual approach, the fact remains that this strategy works perfectly and there is a good reason why. Until recently, about 10% Diploma Students were generally admitted directly into each division of the second year. However, AICTE has now increased the target of seats of lateral entry from 10% to 25%.

effectively doubling the quota. Moreover, since last two years, AICTE has allowed Engineering Degree Colleges to start additional divisions from the second year, exclusively for these diploma students. Plus, AICTE has also reduced the minimum eligibility marks from 60% to 50%. This not only translates into more seats for

way. Students are just not so aware of these new developments. There is an adage that beautifully describes the difference between engineering students and those from other fields: 'I read, I forget. I see, I believe. I do, I understand.'<sup>1</sup> The diploma course gives hands-on experience to students and over the past few years, industry has noticed that students who have done their vocational education have a better understanding of technical concepts. Due to this, diploma students who have upgraded to an engineering degree are actually preferred over those counterparts who have taken the traditional post-10<sup>th</sup> route. These advantages, coupled with the new JEE announced, makes the route of engineering degree through diploma course a very good option for students aspiring for an engineering career. Most important, this enables engineering aspirants to circumvent the dreaded FE (First Year engineering) when the failure rate is about 80%. In fact, making the transition after completion of diploma course directly to the second year of the degree course entails no loss of time whatsoever. Another plus point, which is often overlooked, by those aspiring for an engineering career, is that the diploma, an engineering course in itself provides an excellent foundation for specialisation. With this

Another attractive option worth considering is joining entry into the second year of B. Sc (IT), an ideal course for those eyeing careers the high growth potential IT industry. If an international degree is what they seek, diploma in engineering course students can even go in for a global learning experience at a foreign university. Among the institutions offering this facility to SSC-pass students is Vidyapeeth Polytechnic, which offers all the options thereby enabling engineering aspirants to explore better career opportunities. Vidyapeeth has a tie-up with reputed foreign Universities like California State University in the US and Aston University and Sheffield Hallam University in UK, so its students get the best of both worlds. After their Diploma, students can continue to study for the initial one or two years at Vidyapeeth and then do their final year of Engineering Degree education in either the USA or UK. Since the degree is conducted by International institutions, Vidyapeeth students have the added benefit of being conferred with degrees, which are acknowledged across the globe. Moreover, they have the advantage of flexibility in the course structure with an emphasis on aspects of General Education, which aims at providing overall development as a holistic person. Considering the challenges of education

## Engineering Success

Education Times, in association with Vidyapeeth, organised a counselling session to shed some light on the Diploma in Engineering course. Vahidali Makkar and Rheahe Kulkarni answered a few queries posed by students present at the event

What are the eligibility criteria for admission to a Diploma in Engineering? Students who have passed class 10 are eligible for admission into the first year of the engineering diploma. Those who have passed class 12 are also eligible to get admitted into the second year of engineering diploma.

Do all the diploma colleges have similar programmes? No. Many colleges conduct their own kind of diploma courses and, therefore, need to conduct their own entrance tests to check their admission levels.

What are the advantages of getting into a diploma course?

What are the advantages of getting into a diploma course?

What are the advantages of getting into a diploma course?

What are the advantages of getting into a diploma course?

What are the advantages of getting into a diploma course?

What are the advantages of getting into a diploma course?

What are the advantages of getting into a diploma course?

AICTE has revised the eligibility criteria for diploma courses but has also provided an option to enter additional courses through the diploma.

Is the diploma recognised nationally/internationally? Diploma in Engineering approved colleges recognised not only all over the country but also globally. Many diploma students prefer this engineering degree to foreign countries like the US and UK.

What is the difference between the normal and selective pattern of a diploma course?

In normal pattern the candidates are conducted at the end of the academic year whereas in the selective pattern the candidates in Mathematics follow selective examination pattern.

Which authority awards the diploma in Maharashtra? The diploma is awarded by Maharashtra State Board of Technical Education (MSBTE) which conducts the exam for these courses. MSBTE is an autonomous body under the government of Maharashtra. Most of the professionals in Maharashtra are diploma holders.

DIFFERENCE BETWEEN DEGREE

If it is needed to qualify to get admission in the second year of the degree course, it has also eligibility to get admission into the first year. A diploma student is also eligible to get admission into the second year of engineering diploma course.

What are the admission procedures for direct entry to the second year of engineering degree?

Students in the second year of engineering are also by the Department of Technical Education through conduct of admission process. After the diploma course are not conducted in all the states but are conducted in Maharashtra.

Based on their score they are offered a seat in the respective branch. Some states are reserved for diploma students for admission into the second year of engineering degree.

AICTE has recently not only doubled the seats available for diploma students but has also provided colleges to start additional separate divisions for such students.
