"Education is the most powerful weapon you can use to change the world."

-B.B. King

Institute

Vision

To achieve excellence in imparting technical education so as to meet the professional and societal needs.

Mission

- Encouraging academic excellence and a passion for learning through the use of learner-oriented teaching methodologies.
- Providing an environment that inculcates ethics and effective soft-skills and focuses on the development of learners.
- Establishing and reinforcing a symbiotic institute-industry interface so that learners can gain exposure to real-life applications of Information Technology.

Department of Information Technology

Vision

To become a leading center in the domain of Information Technology where learners are introduced to the concepts and implementation of technologies.

Mission

- Encouraging academic excellence and a passion for learning through the use of learner-oriented teaching methodologies.
- Providing an environment that inculcates ethics and effective soft-skills and focuses on the development of learners.
- Establishing and reinforcing a symbiotic institute-industry interface so that learners can gain exposure to real-life applications of Information Technology.

Program Educational Objectives

- **PEO1:** Provide socially responsible, environment friendly solutions to Information technology related broad-based problems adapting professional ethics.
- **PEO2:** Adapt state-of-the-art Information Technology broad-based techniques to work in multi-disciplinary work environments.
- **PEO3:** Solve broad-based problems individually and as a team member communicating effectively in the world of work.

Program Specific Outcomes (PSOs)

- **Modern Information Technology:** Use latest technologies for operation and application of information.
- **Information Technology Process:** Maintain the information processes using modern information and communication technologies.

Program Outcomes (POs)

- **Basic and Discipline specific knowledge:** Apply knowledge of basic mathematics, science and engineering fundamentals and engineering specialization to solve the engineering problems.
- **Problem analysis:** Identify and analyse well-defined engineering problems using codified standard methods.
- **Design/ development of solutions:** Design solutions for well-defined technical problems and assist with the design of systems components or processes to meet specified needs.
- **Engineering Tools, Experimentation and Testing:** Apply modern engineering tools and appropriate technique to conduct standard tests and measurements.
- **Engineering practices for society, sustainability and environment:** Apply appropriate technology in context of society, sustainability, environment and ethical practices.
- **Project Management:** Use engineering management principles individually, as a team member or a leader to manage projects and effectively communicate about well-defined engineering activities.
- **Life-long learning:** Ability to analyze individual needs and engage in updating in the context of technological changes.

"Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family."

"Teaching is a very noble profession that shapes the character, caliber, and future of an individual."
– Dr. Abdul Kalam

"Books are infinite in number and time is short. The secret of knowledge is to take what is essential. Take that and try to live up to it."
– Swami Vivekananda

HOD Speak

Er. Yogita Khandagale
HOD, Information Technology

Vidyalankar Polytechnic aims at imparting Quality Technical Education to meet the technical advancements and industrial requirements of the society. It aims at identifying the hidden skills, developing the personality, and inculcating human values to make the students emerge as technically qualified professionals fit enough to face the present competitive world. We teach not only the technical aspects but also inculcate moral and ethical values. This enables them to be socially committed and service oriented. We wish to prepare Diploma holders to face the challenges in the sector of technology and engineering in the future and succeed in offering technology solutions for the betterment of the society and our nation. We are committed to provide leadership, support for students, and help them in their professional development.

Technical News - Mistral AI Launches Enterprise Coding Assistant

Paris, France — Mistral AI, a leading European artificial intelligence startup, has officially launched its Enterprise Coding Assistant, an AI-powered tool on 4th June 2025 aimed at transforming how organizations develop and manage software.

The new assistant is designed to help professional developers write, review, debug, and optimize code more efficiently while meeting the strict security and privacy requirements of enterprise environments. Unlike general-purpose AI coding tools, Mistral AI's solution focuses on secure deployment within private infrastructure, ensuring that sensitive source code remains protected.

The Enterprise Coding Assistant supports multiple programming languages and offers intelligent code generation, contextual suggestions, and automated debugging capabilities. By integrating seamlessly with popular development environments and version-control systems, the tool allows teams to enhance productivity without disrupting existing workflows.

A key highlight of the launch is the assistant's enterprise-grade security model. Organizations can deploy it on-premise or within private cloud environments, making it suitable for companies operating under strict data-governance and compliance standards. This approach addresses growing concerns around intellectual property protection and data privacy in AI-driven software development.

"Dream is not that which you see while sleeping it is something that does not let you sleep."
– APJ Abdul Kalam

Tech Manthan – Vision 1.0

The first session of **Tech Manthan – Vision 1.0** was conducted on 17th May, 2025 with the aim of promoting research, innovation, and academic growth among faculty. The expert for the session was **Er. Anjum Mujawar (CTO)**, who shared his valuable insights and addressed common queries related to research and development.

An open discussion followed, where faculty members highlighted challenges in areas such as curriculum design, assessment practices, student projects, and portfolio development. Topics like innovative teaching pedagogy, industry collaboration, integrating theory with practicals, and implementing **Project-Based Learning (PBL)** across subjects were actively discussed.

Er. Anjum Mujawar provided practical guidance and encouraged faculty to explore solutions through collaboration and continuous improvement. The session was well-received and set a positive tone for future initiatives under Tech Manthan.

Short Term Training Program– AIoT

Vidyalankar Polytechnic, in association with DigiToad Technologies Pvt. Ltd., organized a five-day Short Term Training Program (STTP) on Edge AIoT from 26th May to 30th May 2025. The training was conducted in Lab 6 from 9:30 AM to 4:30 PM daily and aimed at enhancing the practical skills of faculty members in the emerging domain of AIoT by integrating Artificial Intelligence with the Internet of Things using edge computing technologies.

The primary objective of the program was to provide participants with hands-on experience in developing AIoT applications. The training covered key aspects such as sensor data acquisition, real-time data logging, on-device machine learning using NanoEdge AI Studio, and cloud-based communication using MQTT and Node-RED. The sessions were led by industry experts from DigiToad Technologies, who guided participants through practical implementation using STM32 AIoT Developer Kits.

Overall, the STTP was a resounding success, achieving its goal of equipping faculty with the knowledge and skills to implement AIoT-based projects in their teaching and research.

DigiToad Technologies **VP** Vidyalankar Polytechnic

Short Term Training Program on Edge AIoT

KEY HIGHLIGHTS:

- Introduction to Edge AI & IoT Systems
- STM32 AIoT Developer Kit - Hands-on
- Sensor Data Acquisition & Data Logging
- Machine Learning with NanoEdge AI Studio
- MQTT and Adafruit IO Cloud Integration
- Node-RED for IoT
- Smart Building Applications & Anomaly Detection

LEARNING OUTCOMES:

- Develop real-time IoT applications
- Deploy on-device ML models on STM32
- Integrate AI models with cloud platforms
- Hands-on labs with STM32 Kits

Short Term Training Program on Design Thinking

Vidyalankar Polytechnic successfully organized a five-day Short-Term Training Program (STTP) on **Design and Thinking** from **9th June to 13th June 2025**, aimed at enhancing innovative problem-solving and hands-on prototyping skills among faculty members was conducted by **Er. Anjum Mujawar, CTO, Vidyalankar Polytechnic**. The training introduced participants to the five essential stages of Design Thinking—Empathize, Define, Ideate, Prototype, and Test—through a structured blend of theory and application.

One of the key highlights of the program was the group activity focused on designing a **Pill Dispensing Machine**. Faculty participants were divided into groups. Using empathy mapping and ideation techniques, each group identified user needs and created design layouts accordingly. They built physical prototypes using materials such as cardboard and paper, integrating electronic components including an ESP32 microcontroller and relevant sensors as per their proposed design.

The workshop culminated with every group presenting a **working model** of their pill dispenser. The activity not only encouraged creativity and teamwork but also showcased how Design Thinking can be effectively applied to solve real-life healthcare challenges.

The poster features the Vidyalankar Polytechnic logo at the top left. The main title is "Short Term Training Program on Design Thinking". Below the title, it lists "LEARNING OUTCOMES:" with three bullet points: "Understand and apply the Design Thinking process", "Frame real-world problems and generate innovative ideas", and "Create and test paper and hardware prototypes". The dates are "9th to 13th June 2025" and the time is "9:30 am to 12:30 pm". The registration fee is "Rs. 250". There are two QR codes labeled "Registration QR" and "Payment QR". The organizing committee is "Research and Innovation Committee".

Short Term Training Program on Empowering Innovation with IoT: Concepts to Applications

Vidyalankar Polytechnic, Mumbai successfully organized an MSBTE-ISTE approved One Week Short Term Training Program (STTP) titled **"Empowering Innovation with IoT: Concepts to Applications"** from **30th June to 4th July 2025** in hybrid mode. The STTP aimed to enhance the technical knowledge and practical skills of faculty and professionals in the rapidly growing domain of the Internet of Things (IoT). The sessions included a balanced blend of theoretical concepts and hands-on practical demonstrations.

The inauguration on 30th June in the B105 Seminar Hall was graced by **Dr. Irfan Siddavatam**, who spoke on future IoT trends. Over five days, expert speakers covered IoT fundamentals, NodeMCU programming, sensor interfacing, communication protocols like MQTT, and real-world applications in smart cities, agriculture, and water management.

The sessions also introduced AIoT concepts. Participants appreciated the well-structured content, practical demonstrations, and smooth coordination. The program successfully equipped faculty with skills and knowledge to apply IoT in teaching, research, and projects.

The poster features the Vidyalankar Polytechnic logo at the top left. The main title is "Empowering Innovation with IoT CONCEPTS TO APPLICATIONS". Below the title, it lists the dates "30th June to 04th July 2025" and the time "9:00 am to 4:00 pm". The mode is "Hybrid". The objectives are: "To introduce participants to the IoT ecosystem & current trends.", "To provide hands-on training on NodeMCU & sensor interfacing", "To explore IoT protocols & cloud integration", and "To demonstrate real-world IoT applications in smart systems." The last date of registration is "26th June 2025" and the program start date is "30th June 2025". There are two QR codes. The organizing committee members are listed at the bottom: Dr. Ashish Ulhas - Principal, VP; Mr. Vaishali Mankar - Vice Principal, VP; Er. Anjum Mujawar - Chief Technology Officer, CTO.

Workshop on Patent Filing, Procedure & Requirements

The Research and Innovation Committee organized an expert session to create awareness about Intellectual Property Rights, focusing on the patent filing process.

Expert Mr. Prakhar Singh, Assistant Controller of Patents & Designs, Patent Office, Mumbai explained various types of IPR, importance of patents, step-by-step filing procedures, required forms, online filing process, expedited examination, and non-patentable inventions. Participants were also introduced to key patent search platforms such as Free Patents Online, Google Patents, Espacenet, and Indian Patent Search.

The session saw active participation from faculty and students, leading to improved understanding of patent processes and motivating them to protect their innovations. The event concluded with a Vote of Thanks and a feedback QR code display.

The

Workshop on COMSOL Multiphysics Software

Research and Innovation Committee of Vidyalankar Polytechnic organized a Guest Lecture and Hands-on Workshop on COMSOL Multiphysics Software with the objective of introducing faculty members and students to advanced simulation and modelling tools used in engineering research and product design.

The session was conducted by Prof. Amey Revandkar, Assistant Professor, Electronics and Telecommunication Engineering, VIT who possesses extensive experience in simulation-based analysis and research-oriented applications.

The workshop provided participants with a comprehensive overview and practical exposure to COMSOL Multiphysics, enabling them to model and simulate engineering systems across multiple physics domains. The expert explained the importance of multiphysics simulation in academic research, design validation, and preparation of conference and journal papers.

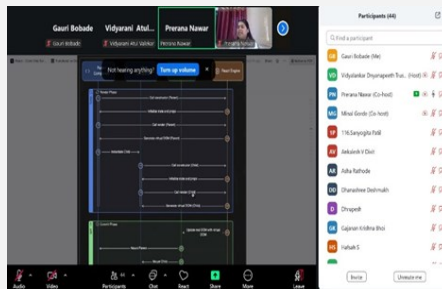

The hands-on component allowed participants to understand real-time simulation workflows, thereby strengthening their practical and analytical skills.

Short Term Training Program on Client Side Scripting

Vidyalankar Polytechnic conducted a Short Term Training Program on Client Side Scripting (CSS) from 8th to 12th December 2025 in online mode. The program focused on hands-on learning of JavaScript, Angular, and React to strengthen participants' client-side web development skills.

The STTP was delivered by industry experts Mr. Prabhat Padhy (Vice President, ApMoSys Technologies Pvt. Ltd.), Mr. Rohit Patil (Associate Software Engineer, Mobileware Technologies), Mr. Parth Jansari (Senior Software Developer, Impulsive Web), Mr. Anup Kamatkhadpe (Senior Manager, National Stock Exchange), Ms. Prerana Nawar (Full Stack Developer, Invact Metaversity), and Mr. Saqib Ghatte (Founder & CEO, Hertzsoft Technologies). Faculty members were also encouraged to enhance their skills and evolve as resource persons. The program received excellent feedback, and ISTE e-certificates were issued to eligible ISTE members based on attendance and an online assessment.

Conclave 3.0 : Mobile Frontiers

The Alumni Committee successfully organized **Conclave 3.0 – Mobile Frontiers** on **4th October 2025**. The conclave was aimed at exploring emerging trends, innovations, and future opportunities in mobile technologies, while fostering meaningful interaction between alumni, students, faculty, and industry professionals.

The conclave featured expert sessions, and interactive talks focusing on key areas such as mobile application development, next-generation mobile networks, artificial intelligence in mobile systems, and future industry trends. Our eminent alumni Mr. Kush Kapadia & Mr. Shaunak Sawant shared their knowledge, experiences, and perspectives on the evolving mobile ecosystem.

Internal Hackathon 2025

The Internal Hackathon held at Vidyalankar Polytechnic on 20th September 2025 was a resounding success, bringing together the brightest minds and fostering innovation within our institution. A total of 93 teams participated in the hackathon out of there were 231 girls and 327 boy's students participated in the event.

The event comprised two crucial rounds: the Mentoring Round, which commenced at 9:00 am, and the Evaluation Round, starting at 2:00 pm.

The primary objective of the Mentoring Round was to provide participants with an opportunity to receive guidance, insights, and constructive feedback from industry experts and mentors. This round aimed to help teams refine their project ideas, troubleshoot challenges, and enhance their overall hackathon experience.

The Evaluation Round was designed to assess the projects developed during the hackathon based on predefined criteria. A panel of esteemed jury members played a pivotal role in determining the winners.

All teams were selected to represent our institution at the Smart India Hackathon 2025. The Internal Hackathon held on 17th August 2025 was a testament to the spirit of innovation and collaboration at Vidyalankar Polytechnic. The knowledge gained, ideas generated, and connections formed during this hackathon will undoubtedly continue to shape the future of our institution.

The banner features logos for the Ministry of Education, Government of India; ANTE; MoE's INNOVATION CELL (GOVERNMENT OF INDIA); and SMART INDIA HACKATHON 2025. The central text reads: **Vidyalankar Polytechnic**, **Conducting Internal Hackathon for SIH 2025**, **20 September, 8 am Onwards**. A QR code is provided with the text "Register Now!".

The State Level Technical Quiz, held on 4th October 2025, at Vidyalankar Polytechnic aimed to enhance technical knowledge and foster competition among engineering students in the fields of Computer Science and Electronics. The event featured participants from various colleges across the state and utilized a custom-designed application for conducting the quizzes.

The quiz attracted over 110 students, from different 35 diploma colleges who formed teams in two categories: Computer Engineering and Electronics Engineering. Each team consisted of 2 members, promoting collaboration and teamwork.

Highlights of the Event-

Inauguration: The event was inaugurated by Dr. Ashish Ukidve Principal, Vidyalankar Polytechnic, Mumbai who emphasized the significance of cybersecurity and technical skills in the modern digital landscape.

Custom Application: The quizzes for Rounds 1 and 2 were conducted using a custom-designed application, which provided a seamless and engaging experience for participants.

Chief Guest for Prize Distribution: Mr. Sawant, attended the event as the Chief Guest for the prize distribution ceremony, inspiring participants with his insights into technology and innovation.

Quiz Masters for Final Round: The final round was conducted by esteemed Quiz Masters, Mr. Amaya Samant and Mr. Rodrigs, who added an engaging and dynamic element to the competition.

Expert Panel: The quiz was moderated by knowledgeable faculty and industry professionals, enhancing the learning experience for participants.

Entrepreneurship Development Committee organizes Founder's Talk: Inspiring Journeys and Visionary Ideas

Date : 27 th September 2025
Time : 10:30 AM - 12:30 PM
Venue : B105

Activity Name :The Founders' Talk

Date of activity :27/09/2025

No. of Attendees : Students : 220

Staff : 03

The Founders' Talk was organized to provide students with an opportunity to learn directly from accomplished entrepreneurs and industry leaders. The objective of the session was to inspire students, expose them to real-world experiences, and motivate them to pursue innovation, creativity, and entrepreneurial thinking.

On 27th September 2025, Founder and CVO of Cloud Counselage Pvt. Ltd Mr. Tushar Topale and Co-Founder & Director Ms. Subhi Shildhankar delivered a Founder's Talk at Vidyalankar Polytechnic.

Through this session, they shared their audacious founder journeys, the challenges and wins that shaped them, and most importantly, how entrepreneurial mindsets can transform problems into projects and ideas into impact.

The response was overwhelming, and students walked away with renewed confidence, and faculty expressed their gratitude for collaboration.

ENTREPRENEURSHIP DEVELOPMENT COMMITTEE organizes Entrepreneurship Awareness Program

Lets Learn, Lead and Launch

VENUE OF EVENT
VIDYALANKAR POLYTECHNIC

Activity Name : Entrepreneurship Awareness program

Date of activity :15/09/2025

No. of Attendees : Students : 265 Staff : 03

The objective of the Entrepreneurship Awareness Program was to create awareness and understanding of entrepreneurship among students. The session aimed to educate students on the fundamentals of starting and managing a business, foster an entrepreneurial mindset, and inspire innovation, creativity, risk-taking, and opportunity recognition.

The program was organized by Entrepreneurship Development Committee in various classes.

The Entrepreneurship Awareness Program successfully met its objective of inspiring students to think like entrepreneurs. It helped cultivate a mindset of innovation and risk-taking while highlighting the opportunities available for aspiring business founders. The organizing committee expressed gratitude to the speaker, participants, and management for their support in making the event a success.

WORKSHOP ON BUSINESS STRATEGY

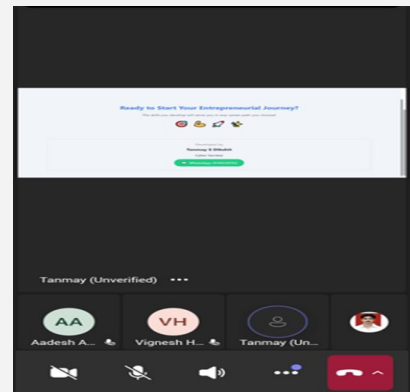

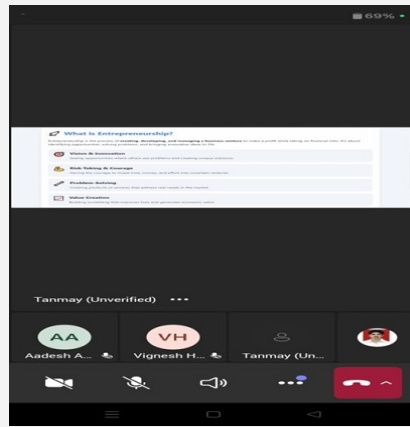

MR. TANMAY DIKSHIT
FOUNDER, CYBER SANSKAR

DATE
TUESDAY, 30TH DEC 2025

TIME
02:45 PM

VENUE
(MS TEAMS)

VP

Activity Name :Workshop on Business Strategy

Date of activity :30/12/2025

No. of Attendees : Students : 105 Staff : 03

A workshop on Business Strategy was organized to enhance participants' understanding of strategic planning and decision-making in a competitive business environment. The workshop focused on key concepts such as the importance of business strategy, vision and mission formulation, environmental analysis, and competitive strategies. Through interactive lectures, case studies, and group discussions, participants gained practical insights into how organizations develop and implement effective strategies. The sessions encouraged critical thinking, teamwork, and problem-solving skills. Overall, the workshop was informative and beneficial, helping participants connect theoretical knowledge with real-world business practices.

The main objectives of workshop are:

- Understand the fundamentals of business strategy
- Analyze business problems using strategic frameworks
- Develop strategic solutions for given business scenarios

Assistant Manager
Information Security
Tata AIA Life Insurance

01 member from every project group is compulsory

23rd August 2025 09:00 AM - 12:00 PM

B.105, VIT Building

Organising Members IIIC and FYPQ Committee

The seminar aimed to create awareness among final year students about the importance of building secure digital ecosystems in the emerging domains of Artificial Intelligence (AI), Internet of Things (IoT), and Web Applications. Project group leaders from the Department of Computer Engineering and Information Technology had attended the session

The session was delivered by Mr. Naresh Kumar -Assistant Manager, Tata AIA Life Insurance. The session emphasized practical approaches, tools, and methodologies for identifying threats, assessing risks, and integrating security into the Software Development Life Cycle. This lecture also covered-. Threat and Risk Assessment, Importance of Secure Coding Practices, Security Checklist for Final Year Projects.

The session was highly interactive, with students participating in discussions and practical exercises related to real-world threat scenarios.

Industry Institute Interaction Committee Events-Industrial Visits

Can We Build Technology in India ,For India and the World?

Objective of the Event:

The objective of the memorial lecture was to pay tribute to Late Shri Prabhakar Deodhar, a visionary technologist and educationist, and to inspire students by highlighting his contributions to the Indian electronics and IT industry. The session aimed to motivate students to pursue excellence, innovation, and leadership in the field of technology.

The session commenced with a floral tribute to Late Shri Prabhakar Deodhar followed by a brief introduction about his life, achievements, and contributions to India's electronics and IT sectors.

The invited speaker Mr. Shivanand Kanavi delivered an inspiring lecture on "**Can We Build Technology in India ,For India and the World?**" inspired by the Vision of Late Shri Prabhakar Deodhar.

The speaker emphasized the importance of technical knowledge, leadership, and ethical values in building a successful career and contributing to nation-building. The session also included interactive Q&A where students clarified doubts and shared their views.

Outcomes / Key Takeaways:

- Students learned about the legacy of Late Shri Prabhakar Deodhar and his role in India's technology growth.
- The lecture motivated students to adopt innovative thinking and contribute to the development of society through technology.
- Participants understood the importance of leadership, integrity, and continuous learning.

1. Sangeeta Shirsat
2. Kalyani pawar

VP

The institution organized an expert lecture on "**Cybersecurity and AI: Future-Proof Skills for the Digital Generation**" on 13th September 2025. The session aimed to equip students with an understanding of emerging trends in cybersecurity and artificial intelligence, emphasizing the skills required to stay relevant in a rapidly evolving digital landscape.

The invited speaker, Dr. Nareshkumar Harale, is a renowned professional in the field of cybersecurity and AI. During the lecture, the speaker:

- Highlighted the critical role of cybersecurity in protecting digital assets and personal data.
- Explained how AI technologies are transforming industries and creating new career opportunities.
- Discussed practical strategies for students to develop future-ready skills in AI and cybersecurity.
- Shared real-world examples and case studies to demonstrate the impact of AI-powered cybersecurity solutions.

Engaged students in a Q&A session, addressing queries on ethical AI, cyber threats, and career guidance.

The session was highly interactive and informative, inspiring students to explore advanced learning opportunities in cybersecurity and AI. Faculty members appreciated the practical insights provided, which aligned with the current academic and industry trends.

Outcome:

- Enhanced awareness among students regarding cybersecurity threats and AI applications.
- Motivated students to pursue skill development in emerging technologies.
- Strengthened the connection between academic learning and industry requirements.
- **Total Participants: 57**
- **Faculty Members: 02 ,Students : 55**

Industrial Visit to Medirays Corporation

Industry Institute Interaction Committee had organized an Industrial Visit to Medirays Corporation, Asangaon for the faculties of CO/IF/TE on 14th August 2025.

Objective of seminar:

The visit aimed to understand industrial practices in medical equipment manufacturing.

Company officials gave an overview of products and operations. Faculties observed production, calibration, and quality control processes.

Safety and regulatory compliance measures were also demonstrated. The visit highlighted practical applications of biomedical and QA concepts. Faculty members gained insights useful for curriculum enrichment.

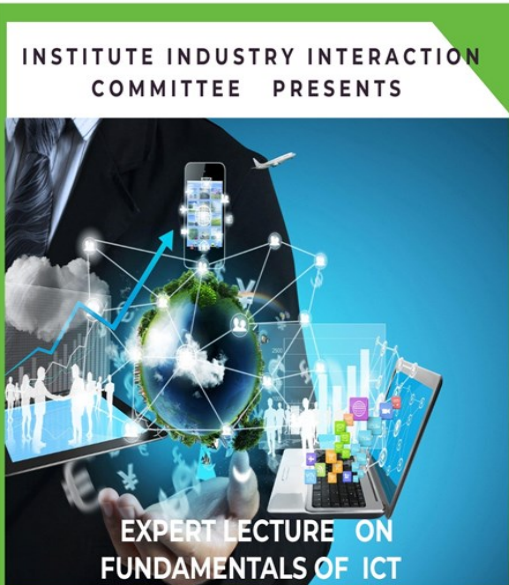

The visit concluded with feedback, thanks to the host, and group interaction.

This expert lecture was attended by 7 faculties.

Cybersecurity and AI: Future-Proof Skills for the Digital Generation

INSTITUTE INDUSTRY INTERACTION COMMITTEE PRESENTS

EXPERT LECTURE ON FUNDAMENTALS OF ICT

Speaker :Mr.Tejas Relekar (Tejyash Cyber Solutions)

Date: September 27th, 2025
Time: 10.00 am onwards
Venue: M-413, Vidyalankar Campus

VP

The Department of Computer/IT organized an Expert Lecture on Information and Communication Technology (ICT). The session was conducted by Tejas Relekar, from Tejyash Cyber Solutions, a renowned professional in the field of ICT.

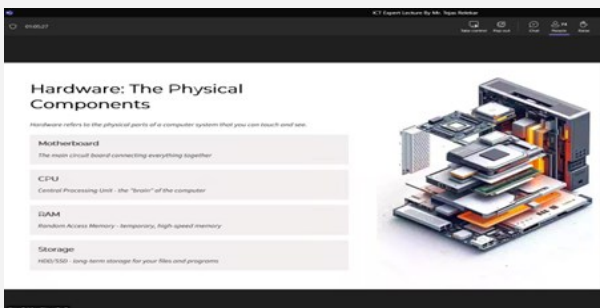

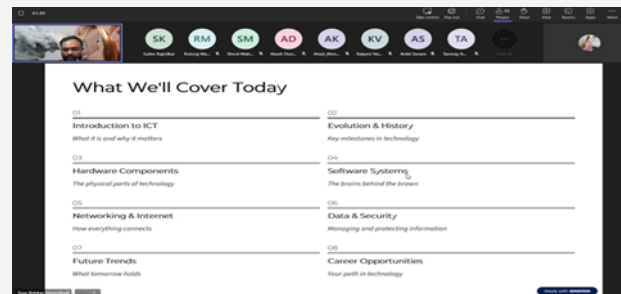

The objective of the lecture was to enhance the knowledge of students about the latest trends, applications, and career opportunities in ICT. The expert provided insights into various areas such as digital communication, networking, cloud computing, e-governance, and the role of ICT in modern industries. Real-life examples and case studies were shared to help students connect theoretical concepts with practical applications.

The session was interactive, and students actively participated in the Q&A round. The resource person addressed queries related to ICT applications in business, education, and government services, which broadened the students' perspectives.

Outcomes of Guest Lecture

1. To develop participants' skills in using spreadsheets for efficient data organization and management.
2. To teach key spreadsheet functions and formulas essential for data analysis.
3. To enable participants to create and interpret charts and visualizations for better data understanding.
4. To introduce advanced tools such as pivot tables for summarizing and analyzing large datasets.

Visit to Somaiya Vidyavihar University

**INDUSTRY INSTITUTE INTERACTION
COMMITTEE
ORGANIZES
VISIT TO
INFORMATION SECURITY LAB**

**DATE: 27th August 2025
Time: 11.00 am**

**VENUE: SOMAIYA VIDYAVIHAR
UNIVERSITY**

Description- Industry Institute Interaction Committee had organized a visit to Somaiya Vidyavihar University, on 27th August 2025 for the faculty members of Vidyalankar Polytechnic.

The visit to the Cybersecurity Lab was organized to gain practical exposure to modern cybersecurity tools, technologies, and practices. The lab visit provided insights into how to setup a laboratory.

During the visit, the following activities were demonstrated:

Network Scanning: Demonstration of port scanning using Nmap to identify open ports and potential vulnerabilities.

Packet Analysis: Using Wireshark to capture and analyze network traffic for anomalies.

Password Cracking Demo: Showing how weak passwords can be cracked using brute-force tools.

Firewall Configuration: Explaining how firewalls are set up to block malicious traffic.

Phishing Awareness: Identifying signs of phishing emails and malicious links.

No.of attendees : staff -03

Teachers Day and VP Vardhapan Din

The Teachers' Day was celebrated with great enthusiasm and reverence on 5th September 2025 in Vidyalankar Polytechnic to honor the invaluable contribution of our teachers. The program was organized in the VP Seminar Hall and commenced at 12:00 pm onwards with the arrival of the dignitaries and faculty members.

The celebration began with a warm welcome address, followed by a floral tribute to Dr. Sarvepalli Radhakrishnan, whose birthday is commemorated as Teachers' Day. Students expressed their heartfelt gratitude through speeches, poems, and cultural performances, highlighting the pivotal role teachers play in shaping lives and guiding the future.

Various entertaining and thoughtful activities were conducted by the students to make the teachers feel special and appreciated. The atmosphere was filled with joy, respect, and admiration, as teachers actively participated and enjoyed the performances.

Our respected Principal addressed the gathering, appreciating the dedication of the faculty and encouraging students to uphold the values instilled by their teachers. The event concluded with a vote of thanks, followed by a light refreshment session.

Overall, the Teachers' Day celebration was a memorable occasion, reflecting the deep bond between teachers and students, and served as a reminder of the noble profession that shapes the destiny of individuals and society.

Staff Welfare Activity-Well Deserved Self Sponsored Day out

Under the auspices of a cool drizzle and a breezy day, VP swung to mood of merrymaking and connecting with nature. The teachers and authorities had a staff picnic on 13 December 2025 at Visava Hotel, Panvel. The high lights of the picnic were sumptuous food, outdoor events, swimming outdoor games and antakshari.

The picnic uplifted the mood of all the faculties who mingled as one team under the canopy of VP. The institute celebrated the spirit of belongingness and being in unison with nature. It was rated as one of the prime memorable events of the year.

Vidyalankar Polytechnic, Staff Development Committee conducted ISTE Approved State Level Two Weeks FDP on Role of AI in Next Generation Applications from 16 June to 28 June 2025. The Week-long programme included 24 sessions which consisted of prominent speakers from various universities.

Outcomes of FDP;

1. Equip participants with a foundational understanding of AI concepts, techniques and terminologies relevant to engineering.
2. Demonstrate various applications of AI in different engineering fields such as mechanical, civil, electrical and computer engineering.
3. Guide teachers in integrating AI topics into existing engineering curricula enhancing course relevance and student engagement.
4. Encourage educators to explore AI-driven research opportunities and innovative practices within their disciplines.
5. Update participants on current trends and future directions of AI in engineering ensuring they remain informed and relevant in their teaching.

ONLINE TRAINING PROGRAM ON
Empowering Educators with AI Tools for Smarter Teaching and Future-Ready Curriculum Design

7th – 11th July 2025 | 10 a.m. onwards

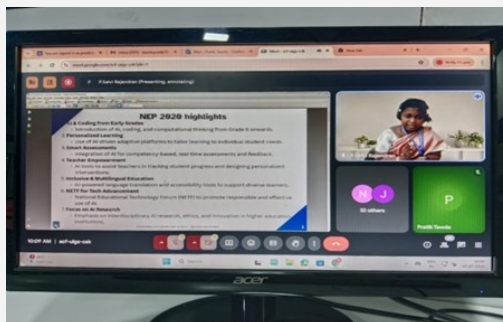

Course Coordinator
Dr. P. Selvi Rajendran Professor
Department of Curriculum Development and
Capacity Building NITTTR, Chennai

Program Outcomes :-

- Explain the basic concepts of artificial intelligence and its relevance to education.
- Identify various categories of AI tools applicable to teaching, assessment, and curriculum development.
- Demonstrate how to use AI-powered tools (e.g., ChatGPT, Google Bard, AI lesson planners) to enhance lesson planning and content delivery.
- Create interactive and personalized learning experiences using AI platforms and chatbots.
- Evaluate and adopt AI tools that support differentiated instruction for diverse learner needs.
- Employ AI tools for formative and summative assessment design (e.g., automated quizzes, essay grading platforms).
- Use AI to generate instant feedback for learners to support self-paced learning.
- Analyze student performance data with AI dashboards to inform instructional decisions.
- Utilize AI tools to map curriculum outcomes, competencies, and learning pathways.
- Redesign existing curricula to incorporate digital and AI-enhanced learning elements.
- Co-create interdisciplinary and future-ready learning modules using AI support.
- Recognize ethical implications, data privacy, and biases associated with AI in educational settings.
- Develop strategies for responsible and equitable AI integration in classrooms.
- Engage in professional learning communities to share best practices and AI integration experiences.
- Reflect critically on the impact of AI tools on teaching effectiveness and learner engagement.

Local Coordinators :-

- Prof. Pratik Tawde (Committee Convener)

Staff Training-MSBTE Sponsored One Week Faculty Development Training Program on "Driving the Future-Electric Vehicles and Renewable Energy Innovation" Organized by VES Poly-

MSBTE has arranged Training program at VES Polytechnic, Mumbai for the faculties of CO/EJ/IF department of affiliated polytechnics On "Driving the Future-Electric Vehicles and Renewable Energy Innovation" from 18/08/2025 to 22/08/2025.

Program Objectives:

To equip faculty members with advanced knowledge and practical insights on the latest developments in electric vehicles (EVs) and renewable energy technologies, fostering innovation and research capabilities that contribute to sustainable transportation and clean energy solutions. The program aims to enhance interdisciplinary understanding, encourage integration of emerging technologies into curriculum, and promote collaboration between academia and industry for driving the future of green mobility and energy.

Training on Digital Literacy-AI in Administration for Non-Teaching Staff Member

A training session on Digital Literacy – AI in Administration was organized for the non-teaching staff members of Vidyalkar Polytechnic on 15/09/2025. The program was aimed at enhancing digital competencies and familiarizing participants with the role of Artificial Intelligence (AI) in improving administrative efficiency. This initiative reflects the institution's commitment to upskilling its workforce in line with modern technological advancements. Dr. Shrikant Mulik, Director and CEO, Vidyarjan Academy Pvt. Ltd. delivered session.

Training on Event and Meeting Coordination for Non-Teaching Staff Members

An Expert Lecture on Event and Meeting Coordination was organized on 15/09/2025 for the non-teaching staff of Vidyalankar Polytechnic to strengthen their skills in planning, supporting, and managing institutional events and meetings. The session aimed at equipping staff members with practical knowledge and techniques to ensure smooth execution of academic as well as administrative activities. Ms. Parinaz Siganporia, Independent Contributor, Learning and Development Pvt. Ltd. delivered session.

Objectives:

- 1.Master Event and Meeting Fundamentals
- 2.Know different event and meeting types
- 3.Navigate coordination and Logistics

Expert Lecture on Financial Literacy for Teaching and Non-Teaching Staff Members

Vidyalankar Polytechnic, Staff Development Committee conducted Expert Lecture on Financial Literacy on 13 September 2025. Mr. Amol Marekar, Financial Educator, SEBI-Securities Market Trainer, NISM Certified, Investment Education Advocate delivered session.

This training covers Investment Planning and Wealth Creation, Stock Market Fundamentals and Capital Market Analysis, Retirement Planning and Debt Management, Financial Literacy for students and Young Professionals, Women Empowerment in Finance, Risk Management and Portfolio Diversification and career opportunities in the BFSI Sector.

A one-week MSBTE Sponsored and ISTE approved FDP on "Cyber Security and Digital Forensic" was conducted by Department of Computer Engineering and Department of Information Technology for the staffs from 13/10/2025 to 17/10/2025. The Resource Person was Dr. Uddesh Vaidya Founder, Director, VAPT Cyber Security Trainer, Aartech Webwork and Cyber Security, Mumbai and Dr. Aftab Khan-Founder and CEO, Photrum Technologies, Mumbai. Chief Guest for FDP was Hon. Shri. Umesh Nagdeve-Secretary, MSBTE, Mumbai.

Objectives:

1. Equip participants with –Advanced Cybersecurity skills for facing real-world cyber security challenges and Digital Forensics skills for effective investigation and evidence analysis.
2. Provide Physical Hands-on experience with networking device, security controllers as well as digital forensic tools and techniques used in real world scenarios.

Volunteering Committee Events

On the occasion of International Day Against Drug Abuse and Illicit Trafficking, observed annually on 26th June, the Volunteering Committee organized an impactful Anti-Drug Awareness Program aimed at educating students and faculty members about the harmful consequences of drug abuse and encouraging a healthy, drug-free lifestyle.

The primary objective of this program was to spread awareness about the dangers of drug use and addiction, promote positive peer influence and mental well-being, and support international efforts to combat drug abuse and trafficking.

The event began with a rally around the campus, where students carried banners and placards with anti-drug slogans such as "Say No to Drugs, Say Yes to Life" and "Your Life Matters – Stay Drug-Free". A creative digital poster making competition was held, encouraging students to express their anti-drug messages through art and words

The Volunteering Committee organized "Celebrating Helping Hands" on 27th September 2025 at W007 to honor the college helpers.

The event included fun games, music, snacks, and tokens of appreciation. Helpers actively participated and enjoyed the program, making it a joyful and memorable occasion.

Number of participants: 40+

A 30 green board and 50 benches were donated to SAMPARC Organisation with the objective of supporting the educational infrastructure for the students. This initiative is intended to enhance the teaching-learning process by providing essential classroom facilities. The organisation conveyed their appreciation for the support, acknowledging the positive impact these resources will have on the academic environment.

Number of participants: 100+

Volunteering Committee Events

Vidyalankar Volunteering committee celebrated "Har ghar Tiranga" campaign conducting number of Activities such as

Decoration - 13-08-2025

Partition Horrors Remembrance Day -14-08-2025

Flag Hoisting Ceremony-15-08-2025

The campaign aims to promote awareness of the flag and patriotism, and to symbolize personal involvement in nation-building. It has also been said to have had a positive impact on children and young people, inspiring them to preserve memories of India's freedom struggle
